

Cambria University™

A COLLABORATIVE LEARNING EXPERIENCE

Shared Knowledge, Shared Success

Founded in 2005 in St. Peter, MN, Cambria University™ combines over 130 years of expertise to help you achieve excellence through collaborative learning and an unwavering commitment to safety.

A partnered learning exchange where we combine our experiences to maximize your success. We focus on understanding your priorities and challenges and sharing key learnings we've picked up along the way.

We offer collaborative learning for businesses at every level, with customized in-person or virtual classes in key areas.

OPERATIONS MANAGEMENT | Processes and programs to drive culture and enable informed decisions (such as shop metrics, inventory efficiencies, managing safety programs, and staffing). Learn how to get the most out of your partnership with Cambria while ensuring a safe, secure, and productive environment.

AUTOCAD/DIGITAL TEMPLATING | Templating processes and operation of PhotoTop or Laser Products LT-2D3D systems in multiple applications.

FABRICATION TECHNIQUES | Processes and techniques for every part of fabrication: slab pre-inspection and layout process, cutting guidelines and programming proper cut sequence, tooling and machinery maintenance programs, finish work, and more, all while incorporating safety best practices.

INSTALLATION TECHNIQUES | Installation guidelines to ensure proper support, techniques for assembling miters and seams. Learn field safety best practices, including dust control and material handling, to protect installers and clients.

SPECIALIZED APPLICATION | Processes and programs for unique and specialized installations such as thermoforming, fireplaces, showers, food service, and more.

REPAIR AND MAINTENANCE METHODS | Routine maintenance and techniques for repairing chips and cracks.

CAMBRIA MAKES IT EASY

Since its founding in 2005, Cambria University is offered free of charge. During your stay, meals at the University and rides to and from Cambria locations are complimentary. You only need to make your own hotel arrangements and coordinate transportation to and from St. Peter, MN.
