

# A COLLABORATIVE LEARNING EXPERIENCE

CAMBRIA UNIVERSITY™

## SHARED KNOWLEDGE, SHARED SUCCESS

A partnered learning exchange where we combine our experience to maximize your success. We focus on understanding your priorities and challenges and sharing any learnings we've picked up along the way.

### WE OFFER CUSTOMIZED COLLABORATIVE LEARNING FOR BUSINESSES AT ALL LEVELS IN KEY AREAS, AS EITHER IN-PERSON OR VIRTUAL CLASSES:

#### Field Measure

Templating processes and operation of PhotoTop or Laser Products LT-2D3D systems in multiple applications.

#### AutoCAD

AutoCAD Command operation and countertop design drawing processes.

#### Fabrication

Processes and techniques for every part of fabrication: slab pre-inspection and layout process, cutting guidelines and programming proper cut sequence, tooling and machinery maintenance programs, finish work, and more.

#### Installation

Installation guidelines to ensure proper support, techniques for assembling miters and seaming, and processes for applications like showers, fireplaces, food service, and more.

#### Operations Management

Processes and programs to drive culture and enable informed decisions (such as shop metrics, inventory efficiencies, safety, and staffing); how to get the most out of your partnership with Cambria.

### GO BEHIND THE SCENES

Learn more about Cambria from start to finish as you tour our slab manufacturing and fabrication facilities.

### CAMBRIA MAKES IT EASY

During your stay, meals at the University and rides to and from Cambria locations are complimentary. You only need to make your own hotel arrangements and coordinate transportation to and from St. Peter, MN.
